

25th Annual MetroHealth Research Day

October 4, 2024
East Dining Room

The MetroHealth Annual Research Day will highlight ongoing basic, translational, clinical and population research addressing the biological mechanisms, diagnostics, and prevention of diseases. The Symposium will bring together a diverse audience to share the latest discoveries and promote collaborative research with a long-term goal of facilitating cross-institutional collaborations in research, clinical trials, and disease interventions.

OUR FEATURED DISTINGUISHED SPEAKERS

John Chae, MD
EVP, Chief Academic Officer, The MetroHealth System; Senior Associate Dean and Professor of PM&R and BME, CWRU

Ozan Akkus, PhD
